phone: 02742/26967,

e-mail: niederoesterreich@klimabuendnis.at

Contents

In the context of the annual Upper Austrian Climate Conference, current topics within the fields of reduction of greenhouse gas emissions and adjustments to the climate change are addressed. The emphasis of this year concerns the topics "Complex Economy" and "EU Emission Trade" as well as regional and municipal adjustment strategies. In sequence to the Upper Austrian Climate Conference, the commemorative event "Climate Savers Before the Curtain" will take place. The programme "Climate Rescue" of the Land departments of Environmental, Energy, Traffic and Agrarian Affairs meanwhile keeps motivating households, schools, municipalities, enterprises, residential builders and other organizations for five and a half years to implement climate protection measures. At this event, activities and targets of the programme are presented. This year's emphasis lies on "Enterprises within the Climate Alliance and Climate Rescue". Among the participating households there will be the annual raffle of 5.000 Euros, 3.000 and 2.000 Euros in cash (earmarked for climate protection measures) and valuable object prizes.

Please find more information under

With my registration, I declare my agreement that my data may be used for internal reprocessing and may be employed for sending further information and event announcements of the Upper Austrian Academy for Environment and Nature. In case of later rejection of those mailings, a short notice to the address mentioned above will be adequate.
